IRVING, Texas, May 02, 2022 (GLOBE NEWSWIRE) -- Exela Technologies, Inc. ("Exela" or the "Company") (NASDAQ: XELA) announced today that it has amended the previously announced exchange offer for shares of its Common Stock and Series B Preferred Stock. In the amended offer (the "Offer"), stockholders can now exchange Common Stock in 20 share increments for one share of the existing, publicly-traded Series B Preferred Stock (Nasdaq: XELAP) with a \$25 liquidation preference, which following the Tandem Stock Dividend described below, will have 20 votes per share. In light of the changes to the Offer, the Company has determined to terminate the offer to exchange the Series B Preferred Stock for a new series of preferred stock. As a result, existing holders of the Series B Preferred Stock need not take any action.

Shareholders whose Common Stock is accepted for exchange in the amended exchange offer will receive Series B Preferred Stock with the following terms:

Liquidation Preference. Upon any liquidation of Exela, before any payments are made to the holders of Common Stock, holders of Series B Preferred Stock are entitled to receive the greater of (1) the \$25 per share liquidation preference plus accrued and unpaid dividends, or (2) the amount that the holder would have received if the Series B Preferred Stock had been converted immediately prior to such event. Thus, upon any potential liquidation, a holder of Common Stock who exchanged their Common Stock for Series B Preferred Stock will receive at least as much as they would have if they had not exchanged. The \$25 liquidation preference, which is equivalent to \$1.25 per share of Common Stock, represents a 257% premium to the closing share price of the Common Stock on April 15, 2022.

Dividends. Holders of Series B Preferred Stock are entitled to receive both:
Cumulative dividends from March 11, 2022, at the rate of 6% per annum on the \$25 per share liquidation preference, representing a 21.4% yield based on the April 15, 2022 closing price of the Common Stock, and
The right to participate in future dividends on our Common Stock.

Conversion. The right to convert their Preferred Stock into Common Stock at a conversion price of \$1.25. Thus, a holder of Common Stock who exchanges their Common Stock for Series B Preferred Stock will retain the right to participate in any increase in value of the Common Stock above the \$1.25 conversion price.

Voting. Following the Tandem Stock Dividend, 20 votes per share, effectively maintaining their existing voting rights.

The Company believes that the additional shares of Series B Preferred Stock to be issued in the Offer, coupled with the voting rights from the Tandem Stock Dividend, will result in an improved trading market for Series B Preferred Stock. The Company has been informed by its Executive Chairman, Mr. Par Chadha, that he plans to fully participate in the Offer, provided that if the Offer is fully subscribed, he intends to limit his participation in the Offer to 20.6% of his Common Stock (representing the percentage of the outstanding Common Stock being sought in the Offer).

Exela has also announced that it intends to declare a dividend of one share of a new series of voting preferred stock (the “Tandem Preferred Stock”) for each share of outstanding Series B Preferred Stock (the “Tandem Stock Dividend”), resulting in each share of Series B Preferred Stock having 20 votes per share (representing the number of votes of the Common Stock surrendered in exchange for one share of Series B Preferred Stock). The declaration and payment of the Tandem Stock Dividend is subject to several conditions, and there can be no assurance that the Tandem Stock Dividend will be declared.
